Dear Mr. Gadbois:

TRANSMITTAL OF REMOVAL ACTION WORK PLAN AND SURVEILLANCE AND
MAINTENANCE PLAN FOR THE 105-B REACTOR FACILITY

Enclosed are two copies of the Removal Action Work Plan and Surveillance and Maintenance Plan for the 105-B Reactor Facility, DOE/RL-2001-68, Rev. 0, for your final review and approval. This document incorporates all comments received from the U.S. Environmental Protection Agency. Submittal of this document meets the Tri-Party Agreement Milestone M-93-06, "Complete Removal Action Work Plan/S&M Plan for B Reactor," by June 30, 2002.

This removal action work plan presents a Comprehensive Environmental Response, Compensation, and Liability Act plan to conduct hazard mitigation action in support of public access to the 105-B Reactor Facility for a 10-year period. The plan also includes a description of surveillance and maintenance activities needed to ensure the 105-B Facility is maintained in a safe, environmentally secure, and cost-effective manner during the removal action.

If you have any questions, please contact me or you may call Ellen Mattlin, of my staff, on (509) 376-2385, or Chris Smith, Environmental Restoration Division, on (509) 372-1544.

Sincerely,

for Joel Hebdon, Director
Regulatory Compliance and Analysis Division
